Since the introduction of the first bagless vacuum cleaner in 1993,  
Dyson devices have solved problems that others have overlooked.  
We develop solutions to the problems we face in our daily lives.  
We have created a device that removes dust and air pollutants,  
and we have created a device that reduces hair damage.  
The never-ending drive to improve technology is our driving force.

That's why only Dyson works like Dyson.

[www.gatevision.co.kr](http://www.gatevision.co.kr)

## DYSON AIRWRAP COMPLETE

It's a styler that creates curls, shapes them, and hides fine hair without excessive heat damage. It can be dried and styled at the same time, and it also provides powerful airflow and temperature control to complete the style without damaging the hair. In addition, a redesigned styling tool allows you to complete your style with effective and enhanced Coanda effects. The innovative Dyson Airwrap Complete makes it easier and faster to create double-scented curls in a single barrel, attracting and wrapping hair into a variety of styles depending on the barrel, such as voluminous waves and straights.

## DYSON AIRSTRAIT

Dyson's latest hair care technology is the innovative Dyson AirStrait that simultaneously blow-dries and straightens wet hair. The heated air flows evenly across the hair, completing the styling without excessive heat damage.

The intelligent thermal control system is designed to regulate the temperature up to 16 times per second to prevent heat damage to protect your hair's natural shine.

## THE WORLD OF NO.1 DRONE BRAND

DJI has established itself as a leading global brand in a variety of fields, including drones, handheld camera systems, and robotics training. With cutting-edge technology, we have redefined the concept of 'Made in China'. With talent and partners as the core foundation, and innovation as the driving force, we have continued to evolve. We believe that the purpose of life in the now and future is to evolve. That's why we envision a future where different people use DJI technology to make our world a better place. DJI's mission is to be a science and technology company that continues to drive human progress.

DJI's vision is to be a pioneer in the era of spatial intelligence, making the beauty of science and technology beyond imagination.

MAVIC | AIR | MINI | AVATA | NEO | POCKET | ACTION | MOBILE | RONIN

### DJI MAVIC 3 PRO

DJI Mavic 3 Series takes image performance to the next level. The Mavic 3 Pro adopts a triple camera system, each with three sensors and lenses with different focal lengths, ushering in a new era of camera drones. Equipped with a Hasselblad camera and dual telephoto cameras, the Mavic 3 Pro adds new possibilities to drone photography with its triple camera system. Create cinematic masterpieces and photo-inspired storytelling with this drone that gives you more creative freedom and captures beautiful landscapes.

### **DJI OSMO POCKET 3**

The all-new Pocket 3 features a powerful 1" CMOS sensor that delivers richer detail in the images you take. Thanks to the 2" rotatable touchscreen and full-pixel fast focus specification, you can control precise focus whether you're shooting in landscape or portrait mode. With 4K/120fps, a 3-axis motorized stabilization system, and a host of intelligent features, Pocket 3 is ready to take on the flexibility of any movement.

# LAURASTAR<sup>+</sup>

## THE BEST OF SWISS SKILL

Founded in Switzerland in 1980, the premium steam iron brand Laurastar revolutionized ironing at home. Founder Jean Monney went to great lengths to realize his commitment to maintaining the beauty of all his clothes.

Laurastar surprised the world by introducing unique technologies such as, the ironing technology imaginable only for professionals and designed it to be used at home. Introduced the unique active ironing board with a blowing and vacuum system to remove wrinkles quickly and easily, the 3D sole plate that can iron to the back with a single iron, and the pulse steam function that continuously dispenses dry steam at high temperatures and pressure like the heart rate.

[www.laurastar.co.kr](http://www.laurastar.co.kr)

<sup>+</sup> SWISS ENGINEERING | DESIGN

## SMART U

Laurastar uses ultra-fine high-temperature steam at 150°C with double heating and enhanced pulse steam to ensure that there is no damage to the fabric and anyone can easily use the steam spraying technology that only professionals have implemented. In addition, the automatic temperature control function allows for perfect ironing without the need for professional skills. The anti-scale filter cartridge filters out limescale to improve the quality of steam for a tidy garment.

## IZZI

Laurastar's unique Dry Microfine Steam (DMS) removes various bacteria, viruses, and fungi from our environment, and the steam sterilizes not only fabrics, but also objects, furniture, bedding, and curtains quickly and powerfully. It provides undamaged care for clothing made from difficult materials and eliminates unpleasant odors. It has a sensual and unique design and has a display effect.

## RESPONSIBLE FOR YOUR SAFE SLEEP

Founded in 1973 with the ambition to provide a comfortable sleep for its customers, Imetec, is a world-class Italian premium brand that has built a reputation for premium home appliances for over 50 years. As a leader in the Italian market, Imetech adheres to its unique identity and responds to various market demands. The patented Intelliheat technology and the Electrobloc safety system ensure a good night's sleep and safety for users. Imetech, which is sold in more than 42 countries around the world, can be found across all famous department stores in Korea and through GATEVISION.

[www.imeteckorea.co.kr](http://www.imeteckorea.co.kr)

## IMETEC'S PREMIUM ELECTRIC UNDERBLANKETS

Imetec's patented automatic temperature control Intelliheat technology allows sensors in the heating wire to detect changes in the temperature of the room in real time and adjust the amount of power supply to maintain the set temperature, to prevent low-temperature burns and maintain the optimum temperature.

In addition, it is safe to receive the approval of the electromagnetic wave test in three countries.

The dual-pole patent achieves the suppression of static electricity through the opposite magnetic field.

It has passed the globally recognized Oeko-Tex certification and Radon test at the KOTITI testing and research institute, a nationally recognized testing research institute, so it can be used without worries for men and women of all ages.

## ◀ Overblanket

Blanket featuring a soft texture and luxury design, the overblanket is easy to fold and easy to move and store, making it easy for camping or staying overnight. After removing the controller, it is machine washable, so you can always keep it as hygienic as possible.

## Heating Pad ▶

It is a product that can be selected according to the required use area with various types of heating pads, and it is a product that can compress tight muscles at a constant temperature with automatic temperature control. Due to its small size, it can be used for office and camping. The heating wire is very thin, so it is safe and comfortable to use for a long time.

**litter•robot®**  
by whisker

**LEADING AUTOMATIC  
CAT LITTER BOX**

For the past 25 years, wellness Whisker has played a leading role in driving pet care technology and future culture.

Founder Brad Baxter realized how unsightly and uncomfortable his cat's neglected litter box was,

and decided to find a way to solve the hassle of litter box cleaning.

As a result, Ritter Robot has ranked first in U.S. market share for the past 25 years and has established itself as a cutting-edge automatic cat toilet brand used by more than 1.5 million people around the world.

[www.litter-robot.kr](http://www.litter-robot.kr)

### Litter-Robot 4 (White)

Litter Robot 4 removes excrement 15 seconds after the cat uses the toilet (time can be set).

Automatically handles and separates into neat litter drawer.

The inside of the globe is made of the highest quality silicone material to minimize sand impact and prevent dust generation. The extra-large round globe with a diameter of 40cm solves air circulation problems, and the ample internal space allows everyone from kittens to adult cats to use it comfortably. In particular, the white color adds a clean and elegant atmosphere.

The bright and clean feel blends naturally into any space and makes the interior more sophisticated and luxurious.

## Litter-Robot 4 (Black)

Litter Robot 4 automatically disposes of excrement 15 seconds after your cat uses the litter box (time can be set) and separates them into a neat litter drawer. The inside of the globe is made of the highest quality silicone material to minimize sand impact and prevent dust generation.

The extra-large round globe with a diameter of 40cm solves air circulation problems, and thanks to its ample internal space, it can be used comfortably by both kittens and adult cats. In particular, the luxurious black color goes well with the sophisticated design and makes the interior stand out wherever it is placed.

The depth of the black color further enhances the quality of the product and creates a premium atmosphere that both cat and owner can be satisfied with.

## SWEDEN ICONIC SPARKLING WATER MAKER

Aarke means 'everyday' in the northern Swedish language.

As its name suggests, Aarke makes customer's everyday life more special.

Our core value is to present products that are made sustainably.

Founded in 2013, Aarke is a Swedish company started  
by industrial designers Carl Ljungh and Jonas Groth.

Aarke stands out for its modern yet classic design unique to Northern Europe.  
It is currently exported to 35 countries, with cumulative sales of 1.2 million units.  
Aarke has established itself as an iconic carbonated water maker loved in Europe.

[www.aarke.co.kr](http://www.aarke.co.kr)

## **Carbonator 3**

Carbonator 3 is a premium carbonated water maker that reflects modern and classic Swedish design. It is made of ALL stainless steel and is highly durable, and provides a delicate and uniform carbonation with its unchanging design & engineering, triple valve and nozzle.

## Carbonator Pro

The Carbonator Pro is a carbonated water maker with a modern, rough-textured design, incorporating a dishwasher-safe glass bottle, one-handed operation, and a smooth Push to Lock function.

## HEALTHIER HOMES SINCE 1950

Since 1950, Sweden's No.1 brand WOODS, has been manufacturing dehumidifiers, air purifiers, and clothes care devices with Woods' unique source technology for about 70 years. We manufactured the world's first dehumidifier to prevent damage caused by mold and moisture, and have sold more than 1.6 million products in Europe over the past 10 years with the goal of developing environmentally friendly products, and manufacture and distribute various air quality-related products. Exported to more than 25 countries around the world, all of Woods' products are carefully designed in Sweden with the highest quality and safety, low energy consumption, and large capacity, and are the world leader in high-quality air care solutions.

[www.woods.co.kr](http://www.woods.co.kr)

# WOODS

## SW30FW / SW22FW / SW38FM / SW42FX

Wood's smart I-ECO Defrost system enables dehumidification at all temperatures and humidity. In addition, it can be used for industrial purposes as well as at home, and its front-down structure takes care of the moisture of the hot air that has sunk down due to the air convection and reduces the effects and discomfort of the hot dry air on the human body.

## WCD4PRO

It is possible to take care a large space of about 70 square meters with a wide range of temperature and humidity conditions. It is a dehumidifier that can be stacked with 3 units together for easy movement and storage, and it can be easily dismantled and cleaned using a semi-permanent FOAM filter.

NEW

# SPOTCLEAN HYDROSTEAM

4in1 FABRIC WET STEAM CLEANER

## PERFECT CLEANING BISSELL

---

Bissell, which has been at the top of the cleaning industry in the United States for over 149 years since 1876, 'does it's best by understanding customers' lives and cleaning needs. Based on our beliefs, we work with passionate experts to not only maintain a cleaner home, but also provide a variety of vacuum, wet, steam, and spot cleaning services to help users enjoy life more.

Furthermore, we propose high-quality cleaning and care solutions to improve the quality of life at home with pets.

We want to value our users' time.

[www.bissell.co.kr](http://www.bissell.co.kr)

## SPOTCLEAN SERIES [ CORDLESS / PROFESSIONAL / PROHEAT ]

With a powerful motor, water sprays, washes, and suction at the same time, and deep cleaning technology that cleans deep into the fibers. This is a versatile wet vacuum cleaner that can be used on carpets, sofas, mattresses, bedding, car interiors and exterior fabric materials. The exclusive formula removes deep stains, disinfects and removes odors and harmful substances from simple stains and textiles.

In the new Cordless SpotClean series, we have eliminated the space constraints by eliminating the cord in the basic technology.

### ◁ CROSS WAVE X7

As the 4th generation of the Cross Wave series, dry + wet + vacuum cleaning can be done at once, reducing the cleaning time by half. It is a wet vacuum cleaner that can be used with a special formula to remove all the dust that is scattered after vacuuming, beyond the simple dirt removal to sterilization and antibacterial has a brush that can clean multiple surfaces, and it can be used at once regardless of whether it is a regular floor, carpet, or rug, so you can always clean it neatly wherever you are. Dirty brushes can also be easily solved with a single press of the auto-cleaning button.

### VAC & STEAM ▷

It can be vacuumed and steam cleaned at the same time, and it sterilizes and removes 99.9% of germs and bacteria only with the steam without the need for chemicals. The very powerful steam warms up and sprays in 30 seconds. It can be used continuously after preheating, and water can be replenished while in use.

## Beyond the era of air purification, the era of air sterilization

---

Ireland's Novaerus, a life science powerhouse, is a state-of-the-art air sterilizer created through continuous research and development since 2009.

Its performance has been recognized by over 30 world-class research institutes, including NASA in the US, and it is exported to over 50 countries around the world (USA, Spain, Czech Republic, Greece, etc.).

This product, which has an outstanding sterilizing ability has been approved as a medical device by the European CE and the US FDA, is currently used in over 1,400 domestic ambulances, over 650 medical institutions, schools, daycare centers, public facilities, indoor exercise facilities, senior living facilities, and postpartum care centers. It is being used in about 250 multi-use facilities including churches, restaurants, and cafes.

NanoStrike, Novaerus' unique world-patented technology, applies 4KV high voltage to the plasma coil to form a plasma field, destroying and sterilizing viruses, bacteria, pathogens, allergens, molds, and other harmful substances in the air passing through it in 0.002 seconds.

## PROTECT NV990

NV990, which can be used in a large space of about 32 square meters, destroys and sterilizes various viruses, bacteria and harmful substances through nano-strike technology. It can be used with a stand or wall-mount and can be used to fit your space.

\*Stand sold separately
